INDICATOR BLUE SG SELECT™

SPRAY PATTERN INDICATOR

GENERAL INFORMATION

Indicator Blue SG Select is a non-toxic, water soluble colorant that can be used either as a pond dye or a spray pattern indicator. The super concentrated soluble granular formulation is easy-to-use and dissolves quickly. Color intensity may be adjusted by gradually increasing or decreasing the recommended application rate as needed.

DIRECTIONS FOR USE

As spray indicator: Apply Indicator Blue SG Select as a tank mix with pesticides, herbicides, fungicides, fertilizers or other liquid treatment. Mix 1 - 2 ounces per 50 gallons of spray solution to cover 1 acre. Thoroughly agitate to ensure uniform dispersion.

As a pond dye: Indicator Blue SG Select is suitable for use in most lakes, ponds and ornamental water features that have little or no outflow. Pour the granules into the water at several locations. Apply upwind at 5 ounces per acre of water. Natural water movement will disperse evenly throughout the water body.

WARRANTY STATEMENT

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
