

Penfiltrate SELECT™

Injection / Irrigation Soil Surfactant

Penfiltrate Select™ is a combination of four different soil surfactant technologies designed to enhance the penetration, infiltration, retention, lateral movement, and uniformity of soil moisture.

Principle Functioning Agents:

30% Proprietary Blend of Alkoxylated Polyols

70% Inert Ingredients

Net Weight: 21.5 lbs (Density: 8.6lbs/gal)

Net Contents: 2.5 gallons

Penfiltrate Select™

Irrigation Aid

GENERAL INFORMATION: *Penfiltrate Select*™ Irrigation Aid is a blend of four advanced polymers and penetrants. *Penfiltrate Select* has a unique balance of multiple polymers designed for water retention, penetration, lateral movement, and uniformity of moisture. *Penfiltrate Select* is intended to be applied via irrigation system using standard injection equipment and or spray equipment.

DIRECTIONS FOR USE: **Injection:** Inject 20-32 fl. oz. per acre, every 7-10 days. **Sprayed:** Apply 20-32 fl. oz. per acre every 7-10 days or apply ½ to 1 gallon per acre every 14 days. Make the first application of *Penfiltrate Select* at the beginning of the growing season, at the maximum labeled rate. Make further applications at the maintenance rate at 7-10 day intervals thereafter or as necessary as judged by the severity of drought stress. From a plant safety standpoint, *Penfiltrate Select* does not require watering in after application, although product performance will benefit from lightly watering in to the soil profile. If *Penfiltrate Select* is used with other products that required watering in, comply with those product labels. *Penfiltrate Select* will not have a negative impact on performance or other chemistries. **Tank Mixing:** *Penfiltrate Select* may be tank mixed with other commonly used turf chemicals and fertilizers. If applicator is unfamiliar with the performance of this product in tank mixes under user's growing conditions, *Penfiltrate Select* should be tested prior to large-scale application. The applicator should always exercise judgment and caution when using this and all other turf products. Tank mixing *Penfiltrate Select* and other products is intended as a matter of convenience; this product is not intended to enhance the performance of other tank mixed components.

RECAUTIONARY STATEMENTS

Harmful if absorbed through skin, do not get in eyes or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment: Wear chemical resistant gloves, Long-sleeved shirt and long pants, and shoes plus socks.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue to rinse eye.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition.

DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best method of disposing containers if allowed by law. The Agriculture Recycling Container Counsel (ACRC) operates the national recycling center program. To contact your state and local ACRC visit the ACRC website at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CLEAN UP: Rinse each spray tank out after each use and flush thoroughly.

WARRANTY STATEMENT: **Price Source, LLC** represents and warrants that its products are manufactured in accordance with the product specification and that its products, at the time of delivery to the purchaser, shall be free from all material defects. **Prime Source, LLC** makes no warranty of any kind, expressed or implied, concerning the product, including but not limited to the implied warranties, merchantability, and fitness for a particular purpose are disclaimed. Further it is understood and agreed that Prime Source liability will not exceed that of the return amount of the purchase price paid by the purchaser. and under no circumstances shall Prime Source be liable for special or indirect, incidental, circumstantial or punitive damages. any use not in accordance with the product directions and precautionary statements, or modifications or additives, adulterations, dilutions or alterations by the purchaser shall void this warranty.
