

# AQUA BLUE SELECT™

AQUATIC

## PRINCIPAL FUNCTIONING AGENTS:

Proprietary blend of water soluble pigment..... 100%

**LAKE AND POND COLORANT**

***DO NOT FREEZE***

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

Read label before use. Keep container tightly closed. Keep only in original container. Avoid breathing dust/ fume/ gas/ mist/ vapors/ spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.

**Personal Protective Equipment:** Wear protective gloves/ protective clothing/ eye protection/ face protection. Wear respiratory protection. In case of inadequate ventilation wear respiratory protection.

**NET CONTENTS: 1 U.S. GALLON (3.79 L)**

## FIRST AID

### IF IN EYES:

- Rinse cautiously with water for several minutes.
- Remove contact lenses if present and easy to do then continue rinsing.

### IF ON SKIN OR CLOTHING:

- Take off contaminated clothing and wash it before reuse.
- Wash with plenty of soap and water for several minutes.

### IF SWALLOWED:

- Immediately call a POISON CENTER or doctor/physician.
- Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able.
- Do not give anything by mouth to an unconscious person.
- Do not induce vomiting.

### IF INHALED:

- If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing.
- If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

## GENERAL INFORMATION

**Aqua Blue SELECT** is a flexible, concentrated formulation that is a non-toxic water colorant. **Aqua Blue SELECT** creates a beautiful natural appearance for your lake and pond. This product is an excellent complement to the already existing beauty of golf courses and park fountains.

**Aqua Blue SELECT** is safe to fish and aquatic species, water fowl, wildlife and pets. It is a non-corrosive dye and when used according to recommended rates will not stain stone, fountains, approved aquatic features or swimwear. The dye will stain rocks, decking and other porous surfaces if spilled or applied as a concentrate.

**PRECAUTIONARY STATEMENTS:** Do not use in water that is expected to be consumed by humans. **Aqua Blue SELECT** is safe for swimming after complete dispersal. Use **Aqua Blue SELECT** only in bodies of water that have restricted flow.

## APPLICATION OR USE RATES

**Aqua Blue SELECT** should be applied one (1) gallon of dye per acre of water with an average water depth of four (4) feet (4 acre-feet).

One (1) ounce treats approximately (8500) gallons of water for small ponds.

An acre/foot of water can be determined using the following formula:

$$\frac{\text{Pond Length (ft)} \times \text{Pond Width (ft)} \times \text{Average Depth (ft)}}{43,560 \text{ ft}^3} = \text{Acre / Foot of Water}$$

## DIRECTIONS FOR USE

Pour the appropriate amount of dye into the water along the edge of the lake or pond. **Aqua Blue SELECT** will distribute evenly, dispersing with lake and pond currents, and wind-blown water movement. To assist diffusion throughout the entire lake or pond, empty the gallon container(s) at different points around the lake or pond edge, or through an aerator, circulation or injection system, waterfall or fountain. Wear eye protection and rubber gloves, carefully applying the dye directly to the water.

**Aqua Blue SELECT** is a high-quality, aquatic dye that will be degraded by chlorine, which will diminish the lake or pond coloration.

In non-chlorinated systems or lakes and ponds, dye is broken down

gradually through biological and photo-degradation. Coloration is also reduced through the natural process of dilution (i.e. – addition of fresh water to the lake or pond). The original color level should be stable for 2-4 weeks, depending on your lake or pond system. Chlorinated systems typically require dye addition within 2 weeks, while biological and photo-degradation is common within 4 weeks. To return your beautiful lake or pond color to its intended coloration level, simply add small amounts of **Aqua Blue SELECT** from time to time which will offset the natural color loss.

## STORAGE AND DISPOSAL

**STORAGE:** Store in a cool well-ventilated place. To avoid product degradation and equipment corrosion, do not use iron, copper or aluminum containers or equipment. Material is hygroscopic and should not be exposed to moisture in order to maintain product integrity. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

**DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local /regional/national/international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org).

### Warranty Statement

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
