PACKAGING

2 x 2.5 gal

LABELED USES

Soil decontamination in turf, ornamental beds and planting areas

Turf reseeded

Bare root transplanting

Seed protection

Spray equipment decontamination

Leaching barrier around trees and shrubs

Flowable charcoal for soil decontamination and plant protection.

- Used to decontaminate soils where pesticide spills have occurred
- For spill decontamination of unexpected oil, gasoline or hydraulic fluid leaks from turf maintenance equipment
- For use when reseeding turf in soils that have been treated with pre-emergent or organic herbicides
- Protects bare root systems of transplants from injury due to pesticide contaminated soils
- Protect trees and shrubs from injury by leaching pesticides by creating a protective water trench barrier
- Can be used to decontaminate spray equipment

Read label for full application and rate information.

IMPORTANT:

ALWAYS READ AND FOLLOW LABEL INSTRUCTIONS.
