

# AZTEB SELECT™

Powerful combination fungicide

## ACTIVE INGREDIENT

Azoxystrobin – Group 11  
Tebuconazole – Group 3

## % ACTIVE INGREDIENT

Azoxystrobin . . . . . 11.9%  
Tebuconazole . . . . . 26.9%

## FORMULATION

Flowable

## CHEMICAL FAMILY

Group 11  
Strobilurin/QoI inhibitors  
  
Group 3  
Triazole

## BRAND ALTERNATIVE

Unique formulation

## MODE OF ACTION

Cell membrane disrupter  
and respiration inhibitor

## RESTRICTED USE

No

## SIGNAL WORD

Caution

## PACKAGING

4 x 1 gal

## LABELED USES

Golf course turf only

**AzTeb Select™** is a systemic fungicide that provides preventative and curative control against diseases common to turfgrass. For use on golf course turf only, **AzTeb Select™** provides total protection through a combination of foliar and root absorption. The highly systemic formula translocates throughout the turf insuring protection to the whole plant. Can be used on cool and warm season grasses or their mixtures.

## PRODUCT BENEFITS

- Defends against both soil borne and foliar diseases
- Provides continuous protection for up to 28 days
- Complete root-to-leaf distribution
- Greater degree of root uptake when compared to other strobilurins
- Convenient liquid formulation for easy tank mixing
- Low use rate

# AZTEB SELECT™

Powerful combination fungicide

## APPLICATION INFORMATION

**AzTeb Select™** is for use in the establishment of turfgrass from seed or in overseeding of dormant turfgrass. May be used for control of certain turfgrass diseases associated with turfgrass establishment from seed. May also be used during overseeding of dormant turfgrass.

May be safely applied before or after seeding or at seedling germination and emergence to ryegrass, bentgrass, bluegrass and fescue turfgrass types.

This product is not for residential use.

## Restrictions

Observe the following restrictions when spraying in the vicinity of aquatic areas such as lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, and estuaries.

- Do not apply by ground within 100 feet of aquatic areas listed above
- Do not cultivate within 10 feet of an aquatic area to allow growth of a vegetative filter strip.
- Do not spray **AzTeb Select™** where spray drift may reach apple trees.
- Do not apply when weather conditions favor drift from treated areas to non-target aquatic habitat.
- Do not spray when conditions favor drift beyond area intended for application.
- Do not use spray equipment which has been previously used to apply **AzTeb Select™** to spray apple trees. Even trace amounts can cause unacceptable phytotoxicity to certain apple and crabapple varieties.
- Do not apply **AzTeb Select™** to turf by air.

## Labeled diseases

Anthracnose	Leaf and sheath spot	<i>Pythium</i> blight	Summer patch
Brown patch	Leaf rust	<i>Pythium</i> root rot	Take-all patch
Brown ring patch	Melting out	Red thread	<i>Typhula</i> blight
Cool weather brown patch	<i>Microdochium</i> patch	Rhizoctonia large patch	Yellow patch
Fairy ring	Necrotic ring spot	Spring dead spot	Zoysia patch
Gray leaf spot	Pink patch	Stem rust	
Gray snow mold	Pink snow mold	Stripe rust	
Leaf spot	Powdery mildew	Southern blight
